Proposal discussed between UAR representative and Fritz Werner suggests considerable naivete both principals as to complexity and scope factors involved.

FYI while UAR not precluded from initiating proposal on govt-to-govt basis, most unlikely this time or in foreseeable future that U. S. would seriously consider supporting establishment facilities for production missiles in middle east area.

Also FYI pending indication of Swiss government reaction to Oerlikon missile production in UAR, (assuming proposition reaches that stage) Dept. prefers reserve comments at this time.

Suggest Mission advise Werner informally that such matters more appropriately handled on govt-to-govt basis.
